EARN UP TO 5000€ WORKING AS A NURSE IN SWEDEN

Would you like to work in Sweden, but prefer not to move there permanently? Then we have a concept for you! Make 3.500-5.000 euro gross/month, working in rotation of 4 weeks and then enjoying 2 weeks off.

ABOUT THE JOB

You will be working across Sweden, in municipal or university hospitals.

The first working period will be of 8 weeks, from which 4 weeks will be of introduction with an experienced Swedish nurse, learning routines and getting to know your new colleagues. Afterwards you will integrate to a 4-2 program. An introduction time will always be included in every new assignment, as well as help and support from a MediCarrera Temp nurse on site.

This program allows you to grow professionally in a modern healthcare system, benefiting from a very good salary and working conditions, without moving away permanently from your home country.

Currently there are open vacancies for nurses with different profiles: with experience in psychiatry, surgery, geriatrics, pediatrics, palliative care, emergency care, ICU, radiology, biomedical sciences, and internal medicine (preferably with one sub-specialization like cardiology or pulmonology).

WHAT WE OFFER

- Two-year contract on 4-2 rotation.
- A free language course to learn Swedish up to B2 level, before the employment begins.
- Assistance with the necessary documentation, as well as finding an apartment in Sweden.
- Salary starting from 3500 up to 5000 € gross per month, depending on number of hours and experience.
- Personalized career growth plan, with the possibility of becoming a coach/mentor for new nurses.

REQUIREMENTS

- Nurse title.
- To complete our language course and pass the B2 exam.
- Preferable two years of clinical experience working as a nurse.
- Conversational English.
